FINNISH COLLAPSE IS FORECAST

T. N. WOOD

T. N. WOOD FOR COUNTY SUPERINTENDENT

I have always been a little reluctant to speak favorably of myself, but in presenting for your consideration my candidacy for County Superintendent of Milam County it be comes imperative that I, at least, mention my experience, training, observations, and any other qualifications, that I might have which would be a background for or an aid in performing the duties of a county superintendent.

I have a Bachelor of Arts Degree and have completed all the required work in my major field of study, which is in the field of administration, for a Master of Arts Degree. I also have the special administrative certificate required of all administrators in accredited schools of Texas.

At the end of this school year I shall have completed eighteen years of teaching experience. I have spent

DENOUNCES REDS AND IS BOOED BY YOUTH

The wife of the President of the United States was heard to plead with the American Youth in Washington last night that she be not hissed and booed until she had concluded her address.

Mrs. Roosevelt, delivering a speech to the young communists now meeting in Washington under the guidance of the National Youth Congress, booed and hissed the First Lady of the land when she attempted to criticize Red Russia.

In her address Mrs. Roosevelt followed substantially the line of appeal made by the President on Saturday when he addressed the assembly of Youths on the lawn of the White House. Both condemned Russian's invasion of Finland.

The New Deal, and especially Mrs. Roosevelt is responsible for the Youth Movement and now having become saturated with communism comes back to hiss its sponsor because the First Lady saw fit to warn them against adopting un-American Principles.

In Berlin today Adolf Hitler called Benito Mussolini on the telephone and discussed the Presidents speech to the young people now in convention in Washington.

7 Months Old Theft Cleared Up With Arrest of Mexican

A seven months old theft was cleared up Friday by City Marshal Gene Smith when he returned from Temple with Anton Garcia arrested there on information furnished by the Cameron marshal.

He was arrested through letters to his family in Cameron now on relief.

WEATHER FORECAST

Rain and warmer weather is promised for tonight and Friday. A storm was sweeping in from the Gulf but no damage is expected.

AID BEING RUSHED TO HEROIC DEFENDERS

The French Chamber of Deputies was meeting in secrecy Friday.

A radio broadcast from the British capital said that the main topic of discussion in London Friday was the immediate prospect of open warfare with Soviet Russia.

It will be remembered that Benito Mussiolini, following the invasion of Poland by the Red army, severely criticized England and France for declaring war on Germany and not declaring war on Russia for the invasion of the same country.

There was every indication that within a short time both England and France would go to war to stop the invasion of Finland, as the British Prime Minister announced Friday that aid for Finland is being rushed.

Meanwhile the most severe pressure of the war was being made against the Finns by Russian trooops and a dispatch from Moscow said that 13 Finnish forts had been captured by the Soviet.

The gravity of the situation was noted in the allied capitals and in the clamor of the people of both countries to have done with delay and to begin the war in earnest.

The German air force Friday renewed attacks on British Commerce but no figures were available to show how many ships were sunk.

W. J. BROWN DIES IN ROCKDALE HOME

W. J. Brown, 58, well known Rockdale citizen died suddenly at his home here Monday night at 8 o'clock. Funeral services were conducted Tuesday at 3 p. m. at the Phillips & Luckey Funeral Home with the Rev. P. T. Ramsey officiating and burial followed in IOOF cemetery.

Mr. Brown was well known throughout Milam county, having lived in this section since 1886. He had been engaged in the sewing machine, piano and radio sales and servicing business both in Rockdale and Cameron.

Death came suddenly Monday night as Mr. Brown was sitting in a chair at his home here. He had suffered with Bright's disease for a number of years and recently had been ill with the flu, but his death was entirely unexpected.

Born near Pine Bluff, Arkansas, Nov. 4, 1882, he moved with his parents to Milam county and settled near Davilla at the age of four years. At the age of 27 he came to Rockdale and had lived here practically off of the time since that date.

Mr. Brown was married to Miss Cora Stewart in 1902 and to this union four children were born only one, Barton Brown of Madisonville, surviving. In 1909 he married Miss Callie Henrietta Martin and six of of their seven children survive, as follows: Mrs. Lura Pate, Eugene Brown, Louise Brown, LaViece Brown and Bill Brown, all of Rockdale; and Norman Brown of Austin. Mr. Brown's wife died last December 29.

Also surviving are two sisters, Mrs. Iva Chasteen of Navasota and Mrs. Cora Taylor of Brady and an uncle, George Aycock of Rogers.

W. A. (BILL) MORRISON FOR DISTRICT ATTORNEY

Your present Criminal Disrtict Attorney, W A. (Bill) Morrison, has asked The Cameron Herald to place before the voters of Milam County his candidacy to succeed himself to the responsible place which he now holds.

During his campaign for this office Mr. Morrison stated that he hoped to make a record of fairness and impartiality in the administration of the criminal laws; his friends contend that he has not only done so, but that he has made an excellent record for convictions, having received only six verdicts of Not Guilty out of eighty cases tried in the District and County courts during his first full year in office. This, of course, does not include the many cases tried in the several justice courts all over the county.

Bill Morrison is a native of Milam County, being the son of the late W.

CENSUS PROGRESS IS REPORTED HERE

Census of Business and Manufacturers in District 11 is about 90 per cent complete, says District Supervisor Carlton Smith of Waco.

H. B. McClellen, enumerator who has been at work in Milam Co. since early in January, has finished Rockdale, Thorndale, Milano, Buckholts, Ben Arnold and other portions except the city of Cameron. He expects to turn in his last filled-out schedules about the end of this month. He and Supervisor Smith both comment on the excellent co-operation that has been given in this county by business men toward accurately filling out the schedules required by the Bureau of Census at Wahsington.

District Supervisor Smith, in response to numerous inquiries about the Population and Agriculture Census which is to be taken in April, says that he will not have complete information about how many enuemerators, where they are to be assigned, nor how much they will be paid until he returns from a Supervisor's schooi of instruction at Dallas the latter part of March. Assistant Supervisor B. N. Jarrell will have charge of the District office in the Federal Building at Waco during his absence.

Upon Smith's return, a group chosen from those whose formal applications are on file in his headquarters will be invited, on the basis of their ability, education and experience, to undergo a course of instruction and competitive examinations. The showing they make will determine which of them are to be named enumerators. Because the Bureau of Census hopes to make this year's census the most accurate of the sixteen taken every ten years since 1790, particular care is being taken in the choice of census-takers.

Plans for the Population and Agriculture survey call for the house to house canvas of city residents to be finished during the first two weeks in April, the farm to farm canvas by the end of April.

On population, the United States Government will find out many facts about the age, schooling, job, lack of it or inability to get it, the earning power and buying pawer of its family of 130 million and more people. The same enumerator who takes the population census of rural territory will take the farm census too, asking

REDS WIN IN BIG DRIVE

Finland has lost in the unequal struggle with mighty Russia.

This was declared to be an accomplished fact by Nazi Germany Friday morning when the government in Berlin made a statement on the progress of the war.

The German statement came shortly after the Russian army had broken the Mannerheim line. The great drive sometime during the night of Thursday had made such progress as to assure victory and the German statement was made in the light of actual developments.

Another little country has suffered the fate of Austria, Czechoslovakia, Poland, Albania and Ethiophia.

The victory of Red Russia over Finland may come within a few hours. Days may be required because the Finns will fight to the last man. The big news of the day is that Finland has been defeated and there is no more independence for the Baltic states.

A special broadcast said that both Finland and Russia had lost thousands killed in the battle climaxed early today with the breaking of the Mannerheim line.

Germany sunk a Dutch ship and issued a statement that the sinking is a warning to all neutral countries.

Atkinson of Maysfield and Kay Moore of Rogers were eluected to the nomination committee to report on nominations for directors at the next annual meeting.

An interesting feature of the meeting was an award in which all members present participated for a registered Hereford calf given away by Frank W. Worley of Rockdale. Rudolph Kamenicky of Milam county received the calf.

An imortant part of the meeting consisted of reports given by director Ralph W. Barry and secretary-treasurer McNeill Drumwright of the progress the association had made during 1939.

CHRISTIAN SCIENCE SERVICES

"Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 18.

The Golden Text is: "I will set my tabernacle among you: and my soul shall not abhor you. And I will walk among you, and will be your God, and ye shall be my people" (Leviticus 26:11, 12.)

Among the citations which comprise the lesson-Sermon is the following from the Bible: "So when this corruptible shall have put on incorruption, and this mortal shall have put on immortality, then shall be brought to pass the saying that is written, Death is swallowed up in victory" (I. Corinthians.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Nothing but Spirit, Soul, can evolve Life, for Spirit is more than all else . . . Only by losing the false sense of Soul can we gain the eternal unfolding of Life as immortality brought to light" (page 335.)

YOEMEN END SEASON WITH DOUBLE WIN

The Yoemen concluded the basketball season for 1940 with a double win over Hearne.

The varsity took a close one 19 to 17 while the B squad nosed out the Eagles in a close contest.

The Yoemen are out of the running in Milam County Championship because they lost to Rockdale. The season was fairly successful and but for poor judgment on the part of the coaching staff in arranging for tournaments the story might have been different.

In the Rockdale game only one official was used and failure of the Cameron coaching staff to properly arrange for officials made a difficult situation worse.

Tragic Story of Five Dead in Corral Murder and Woman Who Had a Bucket of Gold is Told by R. Todd

This is a statement made by Bobt. Todd, age 88 years, former Sheriff and County Treasurer of Milam County, who has been a citizen of Milam County since 1859. The details of this sttory were told to the father of Mr. Todd in the presence of Mr. Todd, who was then a small boy, by old Dr. Hatter, a pioneer doctor.

The Goodhue Wilson ranch was located about four miles, a little northwest, of Yarrellton, Milam County, not far from the County lines.

This story took place immediately after the Civil War.

There was a ranch house on the Goodhue Wilson ranch and as related by Dr. Hatter, who resided about thirty miles or more away, on Cow Bayou, three men came to his home and asked him if he knew where the Goodhue Wilson ranch was and he told them that he did. They told him that they would pay him if he would go with them and show them the ranch.

When they reached a ridge about two miles from the ranch house, he showed them the top of the house and two of the men rode quickly toward same while the other rode leisurely with him. When near the ranch house there were three men and three women in the roping pen butchering a yearling.

He saw these two men empty their six-shooters and kill three men and two women in the pen and shot the third one and broke her arm and she rushed to the house and closed the door and Dr. Hatter and the other man prevented the two from breaking the door down and killing her.

That night she slipped out and took a trail, about four miles, to the Smalley ranch on North Elm and they got medical aid and in the course of a short time, when she was able to go, she got old man Smalley to go with her to the ranch house to get the camp outfit, and they found Ranse Moore and his wife camping in the ranch house.

She gathered up her camp outfit and loaded it and then she asked permission of Mrs. Moore to raise a plank out of the floor near the hearth and she took from the hole a bucket of gold, which contained about two and one-half gallons.

This was told to Mr. Todd by Ranse Moore and Mr. Todd many times has seen the place.

The cause of the killing of the three men and the two women was said to be over negro trouble in Arkansas and the names of the parties are not now known. Ranchmen dug a hole in the roping pen and put the five persons in there and covered it.

This statement was made by Mr. Todd on February 10, 1940.

As an aftermath to this story, old man Smalley deserted his wife and eloped with this woman, that escaped murder and went to Atascosa County.

Mr. and Mrs. T. Floris Criswell, Sr., formerly of Cameron, now of Calvert, are the proud grand parents of fine grand daughter, Patricia Ann, daughter of Mr. and Mrs. T. Floris Criswell, Jr., of Bryan. She arrived February 7th, 1940. Both mother and baby are ding nicely

FINNS RECAPTURE FORTS LOST TO REDS

The war took an ominous turn today as Germany issued a warning to the United States as well as all neutral countries that ships plying through the straits of Gibraltar will be sunk without warning.

It will be remembered that this policy adopted by Germany in the last war was the direct cause of the American entry on the side of the Allies.

While American ships are restricted under the embargo repeal there are a few still flying the flag of the United States and going to the east through the Mediterranean Sea.

The British Crown today issued a proclamation authorizing British citizens to enlist in the army of Finland.

In one of the most bloody battles of the war the Finns today had recaptured a number of positions taken by the Russians on Tuesday, but on the whole there was little hope that Finland could hold much longer against the great Soviet military power.

fifteen of those years in the rural schools or consolidated rural high schools as principal or superintendent and the other three years as teacher of mathematics in Mercedes High School. For the past ten years I have been superintendent of San Gabriel Consolidated Rural High School which had no affiliation a decade ago. Now this school is fully accredited; however, I gladly share this achievement with a hard working and co-operative school board, faculty, student body, and community as a whole.

I realize that County Superintendent is an administrotive official, but the office work limits his opportunities as an administrator. I do think, however, that a county superintendent should be thoroughly acquainted with all school problems and be able to help solve and offer remedial work to same. I feel that I am prepared to meet these situations.

I realize too that a county superintendent has little to do with either the election, the tenure, or the salary of teachers, but should it ever be my privilege as a county superintendent to make recommendations to a school board in regard to same, they would be: that before electing a teacher the utmost regard be given to his or her qualifications and standard of living; that when a teacher is elected, if in a state aid school, pay what the state salary schedule will permit and if in a non state aid school pay according to the school district's ability to do so; that since it is very probable that if a teacher gives satisfaction the first year in a particular school system, he or she will do better work the succeeding years, my recommendation then would be to reelect every teacher when his or her work in its entirety is satisfactory; and lastly that no teacher should fail to be re-elected for any prejudices or political reasons. A stable tenure for a teacher helps to make a stable school system.

There is an elected board of trustees in the various school districts who are representative of the various communities on school affairs and who adopt the school policies of their respective school districts. I do not thing it proper or right for a county superintendent to take issue with a school board so long as the school board is in the bounds of its duties and rights. Let democracy have its way now more than ever before.

Practically every year of my teaching experience, and especially the past ten years, I have had to deal with transfers, bus transportation, and salary aid. These are experiences which I deem very advantageous should I be fortunate enough to be your County Superintendent.

I have made several trips to the State Department of Education at Austin in behalf of the San Gabriel school in regard to affiliation, salary aid, bus transportation, and vocational aid. My dealings with members of the State Department of Education have been most agreeable. Therefore, should you see fit to elect me your County Superintendent, I feel that I might be able to help in securing for Milam County the maximum amount of the various aids to which she is entitled.

My one big promise, should I be elected superintendent of schools, is that my every act and decision as county superintendent would be based primarily on the betterment of school life for Milam County boys and girls. I would never make a decision primarily for political reasons, and all mistakes which might occur would be made honestly and would be corrected if possible.

I hope, as soon as possible, to see each of you personally and with this I present to you my candidacy for County Superintendent of Milam County. I assure you that any consideration given and any inquiry or investigation made will be highly appreciated. Should you see fit to vote for me I will, to the best of my ability, be and remain to be worthy of your support.

Joe McLean made a pleasure trip to Taylor Wednesday night.

Morrison

(continued from page one)

A. Morrison who served Milam County as Chairman of the County Board of School Trustees for twenty-five years and who played an active part in developing the rural schools to the high state of perfection which they now maintain.

After completion of his studies in the law school of the University of Texas, your District Attorney was admitted to the Bar, making the highest grade in criminal law that had been made before the Board of Legal Examiners for the State in a number of years. Upon his return to Cameron, Bill associated himself with his father in the general practice of the law until the latter's death in 1933. Shortly thereafter Bill was elected City Attorney of Cameron, in which post he served the people of his home town for five years.

In 1934 Bill was appointed to the office which he now holds by the then Governor of the State. That same year he was defeated by 13 votes before the Executive Committee of the County. In 1936 Bill again became a candidate for this office and was defeated by 10 votes out of 7,000 cast. In 1938 he was elected to the office he had sought so long.

At the convention of the District & County Attorneys of Texas held in connection with the State Bar Association in July, 1939, Bill's outstanding qualities of a prosecutor were recognized by his fellow enforcement officers throughout the State when he was elected Secretary of that association. This is the first time since the organization of that association that a man holding office as District Attorney for the first term had been elected to an office in that assocation.

Bill's friends point out that the great strength of his support has always come from the rural sections of the County and attribute this fact to his keen insight and sympathetic understanding of the problems of these people. Regardless of where they live, however, Bill Morrison asks for the support of all the voters in his campaign for re-election for his second term.

A Gentle Laxative Good For Children

Most any child who takes this tasty laxative once will welcome it the next time he's constipated and it has him headachy, cross, listless, with bad breath, coated tongue or little appetite.

The Syrup's flavor appeals to most children, and, given by the simple directions, its action is usually *gentle*, but thorough. Remember Syrup of Black-Draught next time. Two sizes: 50c and 25c.

WAR

Japan today issued a warning to the United States that aid to China will not be tolerated and the Japanese government is prepared to deal with the situation and will take proper steps to retaliate against American interests.

The warning came from a member of the Japanese Diet and was regarded as representing the policy of the government.

The Congress on Tuesday made available a loan to China through the Export Import Bank. This has displeased the Japanese and at noon Thursday there was every indication that the United States would have to cancel the loan or face the consequence of Japanese attacks in China. Thus for the United States government has done nothing except back up and be pushed around by the Japs in China and elsewhere. The Japanese know the United States will not back up any bold stand and will go far to outrage American interests.

In Finland today it was claimed 40,000 Russians have been slain in the past 10 days. The climax is fast approaching, say the Finns. Widespread discontent is prevalent in Russia because no progress is being made in Finland.

President Roosevelt, in a speech delivered at the White House to thousands of members of the American Youth Movement Saturday morning told the youngsters that they were welcome provided they came in the spirit of appreciation for the Constitution of the United States, the American way of Life and American Institutions.

The National Youth Organization has had its share of criticism from the Dies Committee investigating un-American activities and it was believed that the President was fully conscious of the importance of his words and therefore took the occasion to warn these young people of the dangers now threatening the country.

He asked the movement to be careful about setting up or following new ideas and warned them that so long as their organization conforms to the Constitution and principles of American Life they have nothing to fear.

In his address, he said that 98 per cent of the American people are for Finland and against Russia, and ridiculed those who say that helping Finland will involve us in a war with Russia.

He takes 'a stitch in time' on Texas telephones

A luxury you can afford—a chat with the folks back home—by Long Distance.

Each day this Texas telephone man flips keys and watches sensitive indicators as he searches for a clue to possible trouble on Texas telephones.

He fully appreciates the wisdom of *a stitch in time* in finding and fixing troubles—or weak spots that might result in trouble. That is one way we safeguard your telephone service in Texas. And one result is that despite the increasing complexity of telephone equipment, telephone customers report troubles on their telephones only half as often as they did 10 years ago.

A stitch in time saves nine. These words in action contribute their full share to the accuracy, dependability, and low cost of your telephone service.

Herald Basketball Cup Not Accepted

Interscholastic League has not yet officially accepted the Basketball championship cup given by the Herald.

Until the cup is accepted and made a part of the official routine of the League and conditions met for its award the cup will not be given, stated publishers today.

The Interscholastic League is operated as an official of extra curricular school activities in Texas and Milam county has a League set up.

It was believed failure to accept or acknowledge the cup is an oversight or lack of interest.

Teams in the rural districts and Class B teams are interested in the award and are looking forward to the tournament in Cameron.

Thorndale and Rockdale are to play their game soon to determine the Class A winner. Cameron has been penalized out of the penant race.

The House continues to work on appropriation bills, having this week passed the bills for the State, Commerce, and Justice Departments. While the work of these Departments is, of course, important, it does not touch the welfare of our people nearly so closely as does the work of the Department of Agriculture. There were rather small reductions made in the funds approved for each of these departments, but the total reduction as compared to the approriations for these same deparemtns for last year was only $2,000,000. I felt that these reductions only represented desirable economics—I therefore supported them.

The only item that brought about a major fight was an effort to break off diplomatic relations with Soviet Russia by the indirect method of striking out the appropriation for the support of the American Embassy in Moscow. While this amendment was offered by a Democrat, it received practically no Democratic votes and did receive almost unanimous support from the Republicans. I have no question of the sincerity or good intentions of Hon. John McCormick, who introduced the amendment, but I do questino his judgment. I am sure that there are not a half a dozen members of Congress who have any sympathy for the brutal and ruthless aggressiion of the Soviet rulers of Russia. I am sure that members of Congress, just as other citizens of America, symathize with and admire the brave fight that Finland is making for independence. I am sure that members of Congress utterly abhor the Russian denial of God, and the Communistic disregard for the rights of individuals. I am sure that these feelings were and are just as stong among Democrats as among Republicans, but I do believe the Democrats of Congress, after listening to the clear and convincing statements of such leaders as Hon. Sam Raburn, Hatton Sumners and Luther Johnson of Texas, realized that the proposed action could not help Finland, that it could not hurt Russia, and that it could only result in the most direct and useless intervention in European affairs by this country. I do not believe that the United States should intervene in the offairs of Europe, but the proposed action would have had all of the dangerous possibilities of direct participation on our part with no more tangible effect than making an ugly face at Russia. I rather feel that a number of our Republican friends realized the danger and the futility of the jesture, but they pust couldn't forgo the opportunity to embarras the Democrats.. A Democrat had offered the amendment. The amendment would have taken control of foreign affairs away from the President, and would have made it look as if the country didn't trust him. It would have been a repudiation of the pledge of the Demostratic Party to stay out of European affairs, and the great majority of the Republicans voted for it. Fortunately, the amendment was defeated by the very close vote of 86 to 88.

Yesterday and today we have had under consideration a bill authorizing the President to give civil service status to practically all employees now working for the Federal Government by "blanketing" them in by non-competitive examination. Most of our people think it would be a good thing to make all selections of Federal employees from civil service lists—at least until they themselves want a government job, then they think that someone in some political osition should be able to help them. I am afraid that the civil service examinations do not always secure the best qualified, and oftentimes the life tenure of a civil service job makes for arrogance—but I don't know of a better method of selecting employees. We surely don't want to wipe out all tests for employment or all security for those who have secured jobs. After all, if we get the right man in a government job the civil service system probably makes him a better employee. If we get the wrong man in, civil service makes him worse, sa we see how important it is that our government select only the best qualified to fill government jobs. This bill was amended so as to provide that no one could be "blanketed" into the civil service from a State that has more than it's share of civil service employees until the other States were given enough jobs to fill their quota. I think this was a very fair amendment, as Maryland, Virginia and other close-by Eastern States have several times as many people in the civil service as they should have, while Texas has only one-half it's share. I voted for the amendment and for the bill. I hope that this bill may be the means of giving more Texans jobs, and at the same time, of giving the people of the United States better service in government jobs.

With best wishes, I am

May Revive Route Of Distribution for The Little Daily

The Publishers have under consideration a revision of the routes of distribution of the Daily Midget in Cameron.

After almost a year at publication certain facts are well established and to keep the cost and to accomplish the same results it may be necessary to change the method of distribution as well as rename the centers.

It is a known fact that advertising is the only means by which publications can live. Many have profited by receiving each day a consignment of dailies but have not in any way supported the paper. Others who patronize and make possible the publication have never enjoyed these advantages.

In order to show our appreciation for those who patronize the little daily, it is only fair that they should receive a consignment each day.

This means that some who have been receiving the little daily will be taken off for the time being. Distribution is limited to 1000 per day.

Mrs. Joe Croisdale accompanied by Mrs. Susie McKinley of Austin were visitors in the home of Miss Isabella Stalworth and Mrs. J. T. Halbrook of Vanuise, California. Mrs. Kate Lowry of Gatesville will accompany them to Austin where they will visit friends before returning to California.

FEAR EXPRESSED WAR WILL SOON BE LOST

Finnish resistance was fast breaking under Russian assaults all along the Mannerheim, it was admitted today in a broadcast from the British capital.

More than 300,000 Red soldiers are engaged in the now 13 day old battle and pressure is increasing with the strain telling on the Finns.

There was open fear in all capitals that within the next few hours the Russians would break through the stout defenses and overrun the small country.

The end of the Finnish war is seen with complete Russian victory if a miracle relief is not dispatched to the little country. There was little to expect from any nation at this time due to the fear that Germany may at any time begin her total war.

Newspapers in Finland were beginning to express bitterness toward Britain and in some quarters the English were charged with promoting the war and obstructing an understanding with Russia.

Turkey announced today she would fight with the Allies if called but would not make war on Russia.

Ambassador Joseph P. Kennedy to Great Britain, flew to the capital at Washington today to confer with Roosevelt on the international situation. Before leaving his vacation ground in Florida he said real war is abount to break in Europe.

The Anzac army of 20,000 men are destined for the near East it was announced today.

Presidential Year Lays Heavy Duties On Demo Chairman

Pity the poor Democratic Executive Committee Chairman. He serves without pay and here is substantially what he will have to do this year.

Being Presidential year, as one would say when a national election is held, the Chairman calls his committee together in April to make plans for the Precinct Presidential Primaries in May.

He is then required to send out all instructions and to name his convention chairman in each precinct. He begins to worry about whether they will serve or hold a conveniton. A county convention must then be held where returns from the Presidential primaries are canvassed and a roll prepared for voting.

The County convention names delegates to the State convention which meets in June. The Precinct Presidential Primaries have nothing to do with the July primary, being only for the purpose of nominating a candidate for President and Vice President, but originate in the voting precincts throughout America.

When the Presidential Primaries are out of the way the Chairman must then prepare for the Executive Committee meeting to make plans for the July Primary which is this year to be held July 27, and then follows the August Primary to be held on the last Saturday in the month.

Election managers must be named and all manner of instructions issued for legally conducting the election. On election day a precinct convention is held immediately after the polls close. These conventions name delegates to another county convention which in turn names delegates to the state convention which in turn nominates candidates for state offices, including governor and lieutenant governor, of course.

An enormous detail of instruction, questions and rulings are required of the Chairman. When the primary is held the vote must be canvassed and read to the convention on the following Saturday. A defect in the law requires that the committee tabulate the vote. This is impossible because it requires about 48 hours work to complete the job.

Pity the poor chairman.

When the convention has certified the vote, the Chairman in Presidential years must then get ready for the November election because as head of the party he is director of the campaign, must see about contributions and otherwise spend his time working for the party.

In all cases returns must be compiled and filed, the primaries being responsible to the state committee. preparation of the ballots, supervision of hundreds of details are also sandwiched in between committee dates. One meeting of the committee extra must be held to make assessments and draw for places on the ballot. A subcommittee must then meet and approve the ballot and to check whether all have qualified by

The Chairman does this without salary. Any volunteers?

Chairman Judd G. Davis whose work has been outstanding, is now a candidate for Tax Assessor and Collector and will resign as Chairman. It will be necessary to arrange for the May Primaries and a new Chairman can then be named by the Committee or the Committee can be convened earlier.

BRITISH AMAZE ALL PORTS WITH NUMBER

The largest number of troops ever transported in one caravan at sea arrived Monday at the entrance to the Suez Canal and were welcomed by Anthony Eden, secretary for British Dominions.

The troops were brought to the European war's eastern theatre from Australia and New Zealand. The number could not be ascertained but commentators said the number of transports and the number of men aboard the transports were so numerous that observers were amazed.

The troops are believed to be en route to Asia Minor where they are to be placed in the allied army under Genegal Weygand.

Germany and Russia were reported today to be building fortifications on the Black Sea.

The Russians were reported to have captured 16 Finnish forts but the Finns were still holding on.

The visit of Under-secretary Welles to the capitals of Europe was widely speculated and peace or war may hinge upon the outcome of this first mediation attempt by the United States.

Adolf Hitler, it was said from Berlin, would receive with interest what Mr. Welles has to say and called Benito Mussolini on the telephone to discuss it. Mr. Welles will not visit

KNIGHTS OF COLUMBUS

Due to the lenten season the meetings are only educational and pertaining strictly to the business of the order.

After some timely remarks by some of the members the meeting adjourned.
